DID YOU KNOW...?

Each year the NM Public Education Department (NM PED) requests input from parents and community members in their efforts to assess the "Quality of Education" that our children are receiving.

By all indications, including data and ongoing feedback from our community, Des Moines Municipal Schools is providing a learning environment that holds high expectations for student success and that provides the support students need in order to achieve to rigorous standards.

We appreciate the confidence that members of our community have in the quality of education of our children, and we would value the input that you provide.

In that regard, please complete the attached survey and return it on Monday to your child's teacher. The data will be tallied and submitted to the PED, as well as being utilized locally to help us in our processes of continuous improvement.
